KEY COMPETENCIES

- Web and mobile application development
- E-commerce solutions
- UI/UX design and integration
- API integration and data management
- Project management
- SEO / SEM basics
- Content creation and digital marketing
- Client and partner communication
- Version control with Git/GitHub
- Problem solving and continuous learning

PROFESSIONAL PROFILE

Passionate about web development and digital solutions, I am looking to join a dynamic team where I can contribute my skills in building innovative and efficient web applications. I enjoy working on challenging projects, optimizing processes, and continuously learning new technologies to deliver high-quality solutions.

PROFESSIONAL EXPERIENCE

Web & E-commerce Developer (Freelance / Personal Projects) — Jul 2024 – Present

- Created and launched several e-commerce stores using the Ostora platform, including product and category setup, payment configuration, and custom design to improve user experience (UX/UI).
- Developed professional websites with WordPress, including theme and plugin installation, creation of dynamic pages (business websites, portfolios, landing pages), and integration of content (text, images, forms).
- Worked on client projects from requirements analysis to deployment, ensuring performance and responsive design.

Web Developer Intern – SOREC (Royal Company for the Encouragement of the Horse)

Rabat | 3-month internship

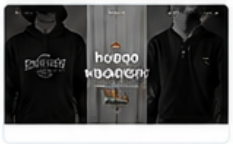
- Developed and improved web interfaces using Angular 9 / TypeScript.
- Integrated and consumed data from REST APIs and handled JSON data.
- Implemented search, filtering, viewing, and management features for racecourses, races and offers.
- Built interactive components (multi-select, dynamic tables, confirmation modals, stepper flows).
- Implemented data export to Excel and improved the UI/UX with Bootstrap, HTML and CSS.
- Participated in maintenance, bug fixing and feature enhancements based on functional requirements.

PROFESSIONAL PROJECTS

benqacem.com — Personal Project

My personal portfolio website showcasing my skills, professional experience and selected projects. The site includes an introduction about me, my services, and a contact section.

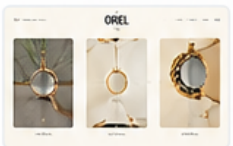
Technologies: Next.js, React, Tailwind CSS



hudoo-brand.vercel.app — E-commerce

An e-commerce website for HUDOO (هدوء), a clothing brand inspired by calmness and simplicity. The site presents the brand's collections (t-shirts and hoodies), product details, and social media links.

Technologies: Next.js, React, Tailwind CSS



orel-brand.vercel.app — E-commerce

A modern website for ORÈL, a jewelry and accessories brand. The site showcases elegant product collections, brand identity, and integrates social media and a newsletter subscription.

Technologies: Next.js, React, Tailwind CSS

EDUCATION

Higher Technician Diploma (Bac+2) in *Digital Development* — 2025 / 2026

Option: Full Stack Web Development

Specialized training in digital development focused on the design, development and management of digital solutions.

Baccalaureate in Physical Sciences — 2021 / 2022
